### Adjudicators remarks -

1/ Opening could be more secure & at times intonation not good, as you progress so many errors are occurring so much more care is req'd. D well done s/c but again ensemble is not good & not enough dynamic contrasts - last 2 bars no sop & brass entry !!

2/ Noisy start but again ensemble is so loose. I this is much better but still has the odd loose moment & p/bc do well. R flows but middle of band ensemble is loose soloists do well all way to close

3/ This is slightly better - but as it makes progress it again gets loose. Super Trom well done & other soloists do well. 298 so untidy 306 some intonation felt. 319 Cor/Flu. much tighter & so much better but R again loose 372 could be clearer but flowed to end.

Sorry but there was so much attention to detail missing & far too much loose playing for me.

Thank you
